## This and That

Short Bits as They Sputter from the Editorial Pen

The man is to be pitied who thinks he can dodge enemies by trying to please everybody. We do not mean by this that a person should go through the world trying to find beams to knock his head against, disputing every man's opinion, fighting and elbowing and crowding all who differ with him. That is another extreme. Other people have their opinions, so have you. We should not fall into the error of supposing that people will respect you more for turning your coat every day to match the color of theirs. We should wear our own clothes in spite of wind and weather, storms and sunshine. It costs more to wind and shuffle and twist than it does honest manly independence to stand.

O—O

Don't forget that your neighbor, tho' he differs from you politically, may be just as honest in his convictions as you are, that this a free country where freedom of opinion is one of the biggest of the broad foundation-stones of our government, and there would be an end to it without it. Be tolerant, therefore, or rather not tolerant but rational, patriotic and good natured. Stand by your convictions and let your neighbor stand by his, if so disposed. If you want to talk politics, do so, but do it calmly and reasonably and bear in mind that just as you have made up your mind as to the way you expect ever to vote, ninety-nine hundredths of the voting population has done the same thing and the little blast you can get up won't change them.

O—O

The person who does as much writing as an editor of a local newspaper may and perhaps does sometimes write over and over the same thing. Whether we have done this or not we have no way of knowing, but if we have it does not make us blush. If a thing is worth saying once it is worth repeating. Then again, the human mind travels by steps and bounds. It goes over the same path today that it went over yesterday, stepping in the same tracks, and why should not there be repetitions? Suppose, therefore, that I search in my memory box and find something like this: "The lark came up to meet the sun and caroled forth its lay; the farmer's son took down his gun and blazed away. The busy bee arose at 5 and hummed the meadows o'er; the farmer's wife went to his hive and robbed him of his store. The little ant rose early, too, his labors to begin; the greedy sparrow that way flew and took his antship in. Oh, birds and ants and bees be wise, in proverbs take no stock; like me from bed refuse to rise till half past eight o'clock." The same reader would know that that was something that had been stored away, laid upon memory's shelf, if you please, ready to be fired off at a moment's notice, and it may have been used in emergencies many times before. So the kind reader as well as the sensible one will always indulge his patience if he finds a thought often repeated and provided it has its clothes sometimes changed.

### OUR COMMON SCHOOLS.

There's many a stately edifice With grand and portly walls And many an institution rare With academic halls, And normal schools and colleges, Where stern professors rule, But dearer far than all to me I count the Common School.

The Common School for one and all

A helping hand extends, It counts the poor as well as rich Among the list of friends.

It nothing knows of caste or sect (God grant it never may!) But may its record be unstained To many a distant day.

Our Common School! Oh, save that name

Forever from disgrace. Oh, raise it high in prominence Give it an honored place.

The Common School! Oh, let it stay

To educate the youth, It cannot wrong or error teach But plain and honest truth.

Oh, guard that institution well, It is our country's pride, Within this much loved land of ours

Let it in peace reside; And garland it with letters bright

Which plainly shall declare: Our bulwark is the Common School,

Molest it if you dare!

O—O

The teacher who takes the pencil or piece of chalk from a child's hand to work out a problem for him does that child a grave injustice. The teacher should instruct, but the child should do the work. We know and remember how to do a thing by doing it and children are certainly no exception to the rule. We become strong only by self-assertion and self-dependence. Again, no teacher ever made a worse mistake and no parent ever joined the teacher in the effort than trying to teach children a 'little of everything' and nothing thoroughly. About all education can do for a man or boy is to set him to thinking for himself. The germ of originality in the individual needs cultivation, needs stimulation. The head crammed with other people's ideas has no room for its own thoughts. Many a child has been so thoroughly schooled that the common sense, the will power and the self-reliance, have all been knocked out of him. A great load of facts without education is worth very little. The school boys of the mountains, according to their age, are the best learned of any boys anywhere and need only to exercise their thinking powers to become thoroughly educated. Education enables the mind to jump far ahead and see things many moons before they take place. The learned man lives in the NOW and not in the future. Boys, slip on your thinking caps, widen out in your ideas, don't hesitate to travel up and down the future's gamut, through imaginative means, and you will be able to see an era in the mountains the equal of which has never been known in any country and clime. The Eagle wants to travel with you and spread its broad, free wings over you, never doing you harm, but, if anything, good.

### A Good Position

Can be had by ambitious young men and ladies in the field of 'Wireless' or Railway telegraphy. Since the 8-hour law became effective, and since the Wireless companies are establishing stations throughout the country there is a great shortage of telegraphers. Positions pay beginners from \$70 to \$90 per month, with good chance of advancement. The National Telegraph Institute operates six official institutes in America, under supervision of R.R. and Wireless officials and places all graduates into positions. It will pay you to write them for full details at Cincinnati, O., or Philadelphia, Pa.

### Don't Break Down

Severe strains on the vital organs, like strains on machinery, cause break-downs. You can't over-tax stomach, liver, kidneys, bowels or nerves without serious danger to yourself. If you are weak or run down, or under strain of any kind, take Electric Bitters the matchless tonic medicine. Mrs. J.E. Van de Sande, of Kirkland, Ill., writes: "That I did not break down, while enduring a most severe strain, for three months, is due wholly to Electric Bitters." Use them and enjoy health and strength. Satisfaction positively guaranteed. 50c. at all druggists.

### Burdine

Watermelons now. Fodder next.

T.J. Mullins has a new store on Elkhorn.

Joel Wright and wife visited on Elkhorn.

Prof. Billie Reynolds has a fine school.

Grace and Roy Ison attended church on Shelby.

Levi Potter's and Jno. Wright's babies are ill.

Haz. Johnson has a bad case of typhoid.

D.J. Bench and wife visited at Alex Ison's.

Jno. Adams is building a splash dam near Ash Camp.

Letcherite.

### It Saved His Leg

"All thought I'd lose my leg," writes J.A. Swensen, of Watertown, Wis. "Ten years of eczema, that 15 doctors could not cure, had at last laid me up. Then Bucklen's Arnica Salve cured it sound and well." Infallible for skin eruptions, eczema, salt rheum, boils, fever sores, burns, scalds, cuts and piles. 25c. at all druggists.

### Oven Fork

William Watson Mullins is the proud father of a fine girl baby weighing about 16 pounds. This young man was highly respected and thought well of by everybody, but now the girls frown upon him and call him "papa."

Little Birdie.

Don't waste your money buying plasters when you can get a bottle of Chamberlain's Liniment for twenty-five cents. A piece of flannel dampened with this liniment is superior to any plaster for lame back, pains in the side and chest, and much cheaper. Sold by all dealers.

## R. R. MATTER SETTLED!

Within Two and a Half Years the Lexington & Eastern Ry. is to be Completed from Jackson, Ky. to Mouth of Boone in Letcher, Coming via Hazard and Whitesburg.

Biggest and Richest Coal and Timber Fields in the World to be Developed.—Contract Will be Let on or Before Oct. 15 and Dirt Will be Flying all Along the Route Before Jan. 1, 1911.—Millions Will be Spent in Constructing the Line and When Finished Letcher County and the Mountains Will Become the Richest Section in Entire South.

## MEANS THAT ALL WILL PROSPER IF THEY WORK

For several weeks, perhaps before any of our citizens had any idea of it, the promoters of the L. & E. R. R. had been looking toward extending their line from Jackson, Breathitt county, on into the heart of the real coal fields. Now, that the right of way for said road has been practically secured, word has been passed along the line assuring us that the river route has been selected and that a contract for the building of the road will be let not later than October 15, of this year, to be finished in two and a half years. If the railroad is built, and every indication is that it will be, Letcher, Perry, Knott and Pike counties are destined in the very near future to become the greatest industrial section in the entire South, perhaps in the whole Appalachian region.

### Keep Cool by Going to the Seashore or to the Housetop

The problem of keeping cool during the hot summer days confronts the little ones as well as the grownups, but when there is a large roof over the house in which they live or an opportunity to visit the seashore most of the discomfort is overcome. A few hours in the surf or upon the sands bring new life and vigor to tired little bodies, and even amid the cooling breezes on the housetops relief is found.

### The Lash of a Fiend

would have been about as welcome to A. Cooper of Oswego, N. Y., as a merciless lung-racking cough that defied all remedies for years. "It was most troublesome at night," he writes, "nothing helped me till I used Dr. King's New Discovery which cured me completely. I never cough at night now." Millions know its matchless merit for stubborn colds, obstinate coughs, sore lungs, lagrippe, asthma, hemorrhage, croup, whooping cough or hayfever. It relieves quickly and never fails to satisfy. In accordance with an order of the Eleventh District Democratic Committee a mass meeting of the Democrats of Letcher county is hereby called to meet at the Courthouse in the town of Whitesburg on Saturday, September 17, 1910, for the purpose of selecting delegates to attend the Democratic District Convention to be held at Somerset, Pulaski county on Thursday, September 22, 1910, for the purpose of nominating a Democratic candidate for Congress in the said Eleventh Congressional District and to be voted for at the regular November election 1910.

"Can be depended upon" is an expression we all like to hear, and when it is used in connection with Chamberlain's Colic, Cholera and Diarrhoea Remedy it means that it never fails to cure diarrhoea, dysentery or bowel complaints. It is pleasant to take and equally valuable for children and adults. Sold by all dealers.

### Stray Hog

**NOTICE!** To The Tax-payers of Letcher County: Of course you know your taxes for 1910 are now and have been due for some time. Suppose you have the money on hand to pay them and fail to pay before September 1st, won't you have to list that money to the assessor and even pay taxes on it next year? That would certainly be a bad business proposition. Better pay them right now while you are thinking about it, than a full long frown from the assessor.

Very Truly,

BOOM! BOOM! Let everybody boom! The railroad is coming, clear the track!

FARMERS, take good advice and freeze to your farm work. Get ready to have something to put on the market. Don't fail to double or treble that onion patch. It is almost time to plant.

HOLD on to your young cattle. Sow oats and grass and watch the big yields that will result in a year or two. Well, take time by the forelock now, and the future will take care of itself. The Eagle will watch every opportunity and give you every word of encouragement possible.

THE man with the big orchard or the little one well kept is going to be in it in this section in a year or so. The fact is the wide-eyed farmer of the past few years is going to be the fat-pocked, easy living farmer of the near future. Talk about kings and potentates and the like, why the farmer is the "salt of the earth." He rules the roost and all bow to him and do him reverence, because from his fountain flows the sustenance of the earth. When he fails the world groans. Young men, young men of the mountains, stick to the dear old farms, the hills your fathers trod! You have but to tap them properly and in due season, and happiness—not the kind that the rich, who never earned the salt that savors their bread, have—but the happiness, the real jam-up kind, will spread its pleasant wings around you and that peace that others know not of will be yours.

ter and more law abiding the citizens become. To know one's duty and doing it is the highest duty of officer and citizen. This iron determination to see that the law is enforced has brought a peaceful era in this county that is beautiful to behold. Gentlemen, let it continue! The following juries were empaneled:

**GRAND JURY.**

In the afternoon the juries were put to work and soon the petit juries were trying cases and returning verdicts for small offenses. There are no murder cases or real sensational felonies on the docket but Judge Lewis declares he is going to try everything that it is possible to try.

Up to press time, Wednesday at 1 o'clock, the grand jury had returned only 1 indictment, a felony, though it is believed a number of others, including some felonies, will be returned. Several small and insignificant charges have been tried and verdicts rendered. Only six have been sent to jail. There is so near nothing on the docket, the county officials having been so persistent in their efforts to ferret out and keep down crimes that it looks now like the term of Court will be a short one, perhaps not lasting longer than till the middle of next week.

Eld. Peter Adkins, of Millard, Pike county, was here Monday.

Pierce McDowell came in and saw his trade. He left his auto at home?

Our excellent friend, Joe Brown (Blackey) of Sassafras, was here and sends the Eagle 6 months to his son, Calloway Brown, at Avawam, Perry county.

Uncle Dave Holcomb, accompanied by his son, James W., returned from Oklahoma City, Okla., and are in town. Jimmy Holcomb, as many of our readers know, left here many years ago and located in the then new territory of Oklahoma. By diligence and industry he has become a financial leader in the metropolis of Oklahoma, Oklahoma City, and is said to be worth as much as \$200,000. However, with all this prestige piled around him, he has not forgotten his raising and we are glad to see the same Jimmy yet. Here's more and more success to you as you deserve it.

Jasper Cornett, of Line Fork, sends the Eagle 3 months to W. M. Proffitt, Fincastle, Ky.

Dr. T. Garret Wright, having been exposed to typhoid and feeling very much indisposed, on advice of his physician left for his home at Thornton without doing much dental work.

Dr. John Collins says that after having traveled over most of Letcher and Knott the corn crop, according to his observation, will be the best known in many years.

Dr. Boaz Adkins has been busily engaged in dentistry here this week.

If you came to town and didn't

settle your subscription or see about it, you may soon find yourself on the barren side of the road so far as the Eagle is concerned.

Photographer Kramer visited home folks at the Gap but is here again ready for work.

Maj. Webb is off with Co. E at Fort Benjamin Harrison. Urias Craft is his store salesman in his absence.

Too much rain is discouraging to the farmer in saving his fodder. If you can't do otherwise, cut 'er up.

We have again gone over the 1,000 mark. The Eagle just will fly to the highest limb.

Mr. Yates, who has been here in the interest of the North Fork Timber Co., was taken very ill and forced to return to his home at Louisa. Dr. Venters accompanied him as far as Pikeville.

Will Pursfull, of Big Stone Gap, has been here for several days.

Joe, son of S. G. Fairchild, was bitten by a copperhead snake a few days ago.

We have just executed a nice lot of printing for County Attorney R. M. Fields and have orders from Judge Craft, "KY" Hotel and others.

The Eagle will soon begin the latest popular serial story, entitled, "Lanier of the Cavalry." Watch for it.

If you are thinking of taking "4 for 1" as advertised in the Eagle you'd better hurry as the offer holds good only for a short time.

Our correspondents must wake up. We want a letter every week from Mayking, Jeremiah, Baker, Partridge or Maggard, Linefork, Eolia, Colson, Blackey Colly and other places. Write!

Since Monday morning we've added 36 new paid-in-advance subscribers to the Eagle. Still they come!

W. B. Reedy sold to Northern Coal & Coke Co. 215 acres of land for \$6,000, 41 acres in fee and balance surface. On Pottery Fork of Boone A. B. Potter sold 180 acres to this company for \$14,000, all in fee. W. K. Collier sold 43 acres in fee at \$40 per acre, on Lower Boone, to the same company.

S. T. Shipley, a prominent traveling man of Jonesville, Tenn., was here and gave us his subscription to the Eagle.

The last reports from up the river state that Joe Craft is very low with typhoid.

## Golly

Lots of rain. J. S. Pendleton still improves. Mrs. Alice Blair visited at Joe Pendleton's.

Jos. Adams and wife are here from Glamorgan. Eld. Sim Adams preached here Sunday.

The funeral of Aunt Liza Franklin will be preached at the graveyard near Byrd Franklin's on Thursday and Friday before the fourth Saturday in this month. M. F.

## Letter From Good Citizen

Horn, Ky., Sept. 12

Dear Eagle,  
 Will you permit an old farmer and strong Eagle patron to say a word on wheat sowing?

I have noticed with a great deal of interest the increase in the amount of wheat raised in our county in the past two years. The first year we raised about 90 bushels up here and this year we threshed 300 and its the finest seed wheat ever raised. Irvine Wright has 61 bushels of this fine seed. Why don't Mr. Dow Collins report the number of bushels threshed by his machine? Next year we are going to raise 1,000 bushels in the upper end if it is a good year.

I want to ask every farmer in our county to sow a good crop of wheat and thus manage to get some of the money back that we have been spending for flour. I am told that we now have a good flour mill in our county and this ought to inspire our farmers. It ought to put new life into the wheat sowing business here. So, let us put our shoulders to the wheel and thus help ourselves. Sow wheat from September 20 to October 20. Resp.,

M. B. Tolliver.

## Aids Nature

The great success of Dr. Pierce's Golden Medical Discovery in curing weak stomachs, wasted bodies, weak lungs, and obstinate and lingering coughs, is based on the recognition of the fundamental truth that "Golden Medical Discovery" supplies Nature with body-building, tissue-repairing, unctio-making materials, in condensed and concentrated form. With this help Nature supplies the necessary strength to the stomach to digest food, build up the body and thereby throw off lingering obstinate coughs. The "Discovery" re-establishes the digestive and nutritive organs in sound health, purifies and enriches the blood, and nourishes the nerves—in short establishes sound vigorous health.

If your dealer offers something "just as good," it is probably better FOR HIM—it pays better. But you are thinking of the cure not the profit, so there's nothing "just as good" for you. Say so.

Dr. Pierce's Common Sense Medical Adviser, in Plain English; or, Medically, 1003 pages, over 700 illustrations, newly revised up-to-date—per-bound, sent for 21 one-cent stamps, to cover cost of mailing bound, 31 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

According to the calendar today (Thursday) is the primary day but up to the hour of going to press (Wednesday) the new railroad had swallowed the whole thing.

The Circuit Court edition of the Eagle is never up to the average. The reason is, there is always more or less extra work on hand and the editor must be out talking to the public and straining his gas-bag. (Looks like it would "bust," don't it?—Davis).

Next Saturday the Democrats are to meet in town and do their resolving. Well, there is nothing like getting in trim for battle. The Democrats will know by then whose meat they will want to chew or chew at.

Any woman who makes a fair test of A-1 Purity flour is a convert. It does not make any difference what she tries first—bread, biscuit, muffins, angel food or gems, the results will be so satisfactory that there will be no use in arguing with her. She has been looking for a flour that is good for all sorts of baking, for years, and A-1 Purity fills the bill. This flour is for sale by Lewis Bros. at 95c a bag or \$7.75 per bbl.

Joe Adams, a son of the late Moses Adams of Little Cowan, was here and took passage for a year on the Eagle's wings.

Shake out those lazy humps that have been accumulating for years and get ready to raise the biggest crops of all kinds next

year, for the railroad is coming! Be ready for it and you will have the best times of your lives, but stand gaping around, leaning on the hoe handle, or dreaming dreams that can never be realized and the "booger man" and the rag man and starvation will get you sure.

## Pain in Heart

"For two years I had pain in my heart, back and left side. Could not draw a deep breath or lie on left side, and any little exertion would cause palpitation. Under advice I took Dr. Miles' Heart Remedy and Nerveine. I took about thirteen bottles, am in better health than I ever was, and have gained 14 pounds."

MRS. LILLIE THOMAS, Upper Sandusky, Ohio.

For many years Dr. Miles' Heart Remedy has been very successful in the treatment of heart troubles, because of its tonic effect upon the heart nerves and muscles. Even in severe cases of long standing it has frequently prolonged life for many years after doctors had given up all hope, as proven by thousands of letters we have received from grateful people.

Dr. Miles' Heart Remedy is sold by all druggists. If the first bottle fails to benefit, your druggist will return your money.

## Moss Breast-Works Go Down

The breast-works at the back of the Judge's seat in the Court house were taken down by Jailer Hall Monday. They were said to have been erected by order of Judge Moss during the kuklux reign in this county about 1901 to protect him from danger through the window just back of his seat. For years, owing to the orderly condition of our county, these monuments of a former day were allowed to occupy their worthless position. We are glad now that no such protection is needed, if it ever was.

## The Secret of Youth

Do you ever wonder how you can remain young, or why other women older than you, look younger than you do? The secret can be put in a few words: "Preserve your health, and you will preserve your youth." By "health" we mean not alone physical health, but nerve health, as, sometimes, magnificently strong-looking women are nervous wrecks. But whether you are weak physically or nervously, you need a tonic, and the best tonic for you is Cardui. It builds strength for the physical and nervous systems. It helps put flesh on your bones and vitality into your nerves.

## Take CARDUI The Woman's Tonic

"My mother," writes Mrs. Z. L. Adcock, of Smithville, Tenn., "is 44 years old and is passing through the change of life. She was irregular and bloated and suffered terribly. My father stepped over to the store and got her a bottle of Cardui, which she took according to directions and now she is up, able to do her housework and says she feels like a new woman." Try Cardui in your own case.

Vice President Fairbanks dedicated the monument four years ago, and former President Roosevelt was selected to make the dedicatory speech for the park on Aug. 31 of this year.

## The Stark Year Book for 1910

is ready to mail. It will be sent to any person interested in fruit-growing on receipt of 7 cents to cover postage. The Stark Year Book for 1910 represents an entirely new idea in nurserymen's literature—it is a work of art as well as a catalogue of Stark Nursery products. Within its covers are 32 full-page illustrations of fruits and flowers, representing 175 varieties, done in four colors, and exactly reproducing nature. 84 pages are devoted to descriptions, prices, and records.

Stark Delicious, the apple that has revolutionized orchard planting and established a new standard of apple values (selling at \$10.00 per bushel box this year); Stark King David, another apple of wondrous quality and merit; Stark King Philip, a hardy black grape of California of fine quality, and dozens of the very best things in the horticultural world are fully described, illustrated, and priced.

To any one planting one tree or many, of fruits or ornamental, this book is of inestimable value—a horticultural text-book—a guide to proper selection. Stark trees have stood the supreme test of actual planting for 85 years—they are the yard-stick by which all other nursery products are measured—they are the first choice of this country's most successful orchardists. The success of the orchard is dependent on the kind and quality of tree planted. Stark varieties are the best of the best. Our record of 85 years of successful selling is a positive guarantee of tree quality.

Before you decide to buy, send 7 cents for the Stark Year Book—do it today before the edition is exhausted.
